PRODUCT SCOPE OF USE

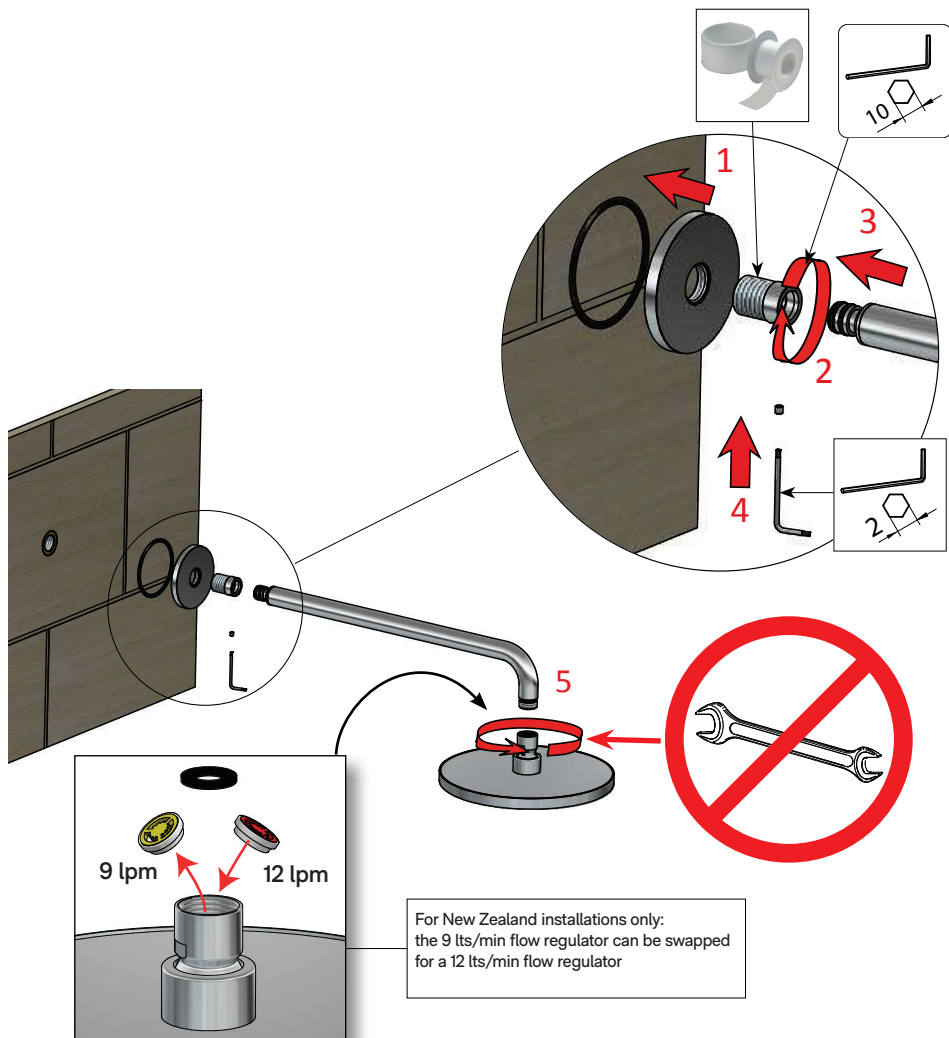

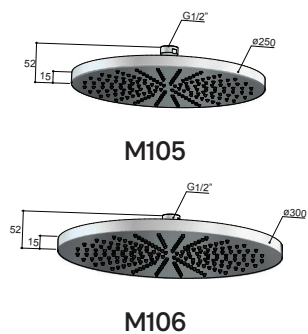

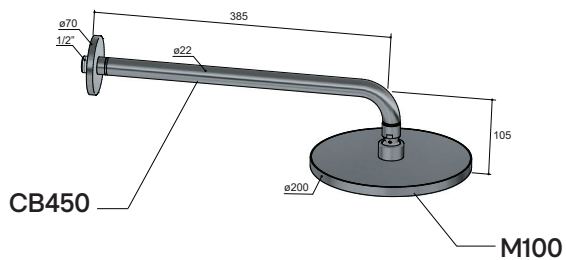

W
AS3662
WMK26995

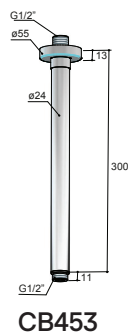

This Plumblines shower head is intended for use in residential and commercial settings for the delivery of water for personal ablation. It must be installed by a registered plumber in accordance with the installation instructions, the Plumbing Code of Australia (NCC Volume 3), NZBC G12 and AS/NZS 3500.

These showers are suitable for use with pressure as indicated in the table below. They may not be suitable for use with gravity-fed water heaters, low and unequal pressure supply networks, instantaneous water heaters, tempering valves and thermostatic mixing valves. These showers incorporate flow controllers: we recommend that during installation the male connecting threads do not damage the flow controllers.

BEFORE STARTING / PRIMA DI INIZIARE / AVANT DE COMMENCER / ANTES DE EMPEZAR / VOR DEM START / VOORDAT JE BEGINT
