INSTALLATION

½" BSP Male outlet required (not supplied)

- 1) Plumb water outlet at desired position.
- 2) Position faceplate onto spout.
- 3) Apply thread tape or desired sealer onto thread of outlet and install spout.

*All measurements are in millimetres. Sizes are nominal.

CARE & MAINTENANCE

- Clean the spout regularly using a soft cloth and mild, non-abrasive soap solution.
- Avoid using acidic, alkaline, or abrasive cleaners, scouring pads, or harsh chemicals, as they can damage the surface finish.
- After cleaning, rinse thoroughly with fresh water and dry with a soft cloth to prevent water spotting and mineral build-up.
- If water flow reduces, isolate the water supply and remove the mixer's aerator to clear debris or mineral deposits; rinse and reinstall.
- For spouts installed in hard-water environments, consider routine descaling of the aerator and filters to maintain performance.

WARRANTY

TERM 10 YEARS

(5 YEARS PARTS & LABOUR, 5 YEARS PARTS ONLY)

- This bath spout is covered by a manufacturer's warranty that applies to defects in materials or workmanship under normal residential use.
- The warranty period begins from the original date of purchase; proof of purchase is required for all claims.
- The warranty applies only when the product has been installed by a licensed plumber and maintained in accordance with the care and maintenance guidelines.
- The warranty does not cover damage resulting from incorrect installation, misuse, accidental damage, alterations, chemical exposure, or normal wear and tear.
- If a defect is confirmed, the manufacturer will repair, replace, or supply replacement parts at their discretion. Labour, removal, or reinstallation costs may not be covered.
- For any warranty enquiry, contact the supplier or manufacturer with details of the issue, installation date, and proof of purchase.
